

Placeholder — EPQ Write-Up Not Yet Uploaded

This file is a placeholder generated during the build of jackhopkins.dev. It exists only so the “Read the write-up” link on the Projects page does not return a broken-link error before the real file is in place.

To replace it: place your original Extended Project Qualification write-up, named exactly **EPQ_write_up.pdf**, into the site's **/pdf** folder, overwriting this file. No code or link changes are needed.

Note: this was generated automatically and is not Jack Hopkins' actual EPQ write-up.
